

BASIC FACIALS WORKSHOP

At the Australasian Beauty Therapy Academy we aim to provide students with a reliable, and flexible learning and assessment process, where evidence gathered through a range of methods is validated against the unit of competency.

Practical sessions can take place in school hours and in the Student Clinic. The Student Clinic simulates a Beauty Salon environment and provides actual beauty services to members of the public. In this environment, students are able to apply the full range of competencies against learning outcomes in a supervised environment.

This continuous assessment process, which is on going for the full duration of the course, provides strong evidence to support the student's final course outcome as well as a tool for constant student feedback and improvement during the course.
