

MICRO-DERMABRASION TREATMENT

At the Australasian Beauty Therapy Academy, we aim to provide students with a reliable, and flexible learning and assessment process, where evidence gathered through a range of methods is validated against the unit of competency.

Practical sessions can take place in school hours and in both practical training classes and the Student Clinic. The Student Clinic simulates a Beauty Salon environment and provides actual beauty services to members of the public. In this environment, students are able to apply the full range of competencies against learning outcomes in a supervised environment. This continuous assessment process, which is on going for the full duration of the course, provides strong evidence to support the student's final course outcome as well as a tool for constant student feedback and improvement during the course.

1. DESCRIPTION:

This course is designed for those wishing to develop the skills and knowledge to use Micro-dermabrasion machine to exfoliate the skin of the body or face. Microdermabrasion is a non-surgical method of skin rejuvenation by means of mechanical skin exfoliation and offers a modern, virtually painless alternative to chemical peels and Laser treatments. You will learn the skills to perform this treatment effectively as well as have a thorough understanding of the theoretical knowledge of the treatment. You will be able to assess the skin needs and design the appropriate treatment plan to target specific skin conditions, and give home care advises to your clients.
