International Diploma Courses

A career in beauty and makeup allows you to work anywhere in the world. ABTA is a member of many global associations which means when you train with us you can gain internationally recognised qualifications. We train you with both national and international syllabus, so that your new skills and standards will allow you to sit for international examinations on beauty therapies and make-up artistry right after you have completed the training with us. This is exclusive to ABTA full time students only.

We will help you get ready for your international examinations (conducted by international examiners from overseas), so that you can receive an international diploma and/or certificate. Your global passport, so you can work anywhere you want around the globe.
